Ms Kathy Brehmer also noted the addition of $1.4M to reserves.

Discussion occurred regarding the need for additional staff in the Financial Aid department.

Ms. Theresa Barry stated that Human Resources is working to fill three positions in addition to the financial aid coordinator position that has been added and will be staffed in September, 2006. These positions are included in the amended budget

ITEM G. DISCUSSION ITEMS

G-1 FY2006-07 Budget Update/District Property Values

Mr. Michael Sargent shared preliminary information pertaining to district property values, stating that initial data indicates that the equalized property values of the Milwaukee district will increase more than those of the state as a whole. The Wisconsin Department of Revenue will provide final equalized valuation assessments in early September. This information will be shared with the full board as it becomes available and used to set the tax levy, which goes to the full board for approval at their regular meeting in September.

Mr. Michael Sargent also noted more dollars resulting from Tax Incremental Districts in Milwaukee than in any other district.

The calculated adjustment of the state aid allocation results in a loss of just over $470,000, $335,000 due to the increase in equalized property values and $138,000 due to the high level of TIDS in the MATC taxing district.

G-2 Budget Variance Report Preliminary Year End June FY2005-06

Mr. Michael Sargent discussed preliminary information pertaining to the close of Fiscal Year 2005-06, noting a growth in reserves that was more than budgeted. He also stated that revenues, state aid, and tuition and fees were less than budgeted. These were offset somewhat by increased revenues in the contract area, largely due to new initiatives by the Office of Corporate Learning.

Salaries were close to budget, with significant savings in almost all categories other than instructional salaries.

Mr. Michael Sargent also noted a modification in accounting for the cost of undiminished pension for early retirees. Historically, Milwaukee Area Technical College recognized expenses for undiminished retirement when the invoices were received from the Wisconsin Retirement System (WRS). By accruing expense during the year of retirement, there is a more correct recognition of the liability. The result of this change in practice will be an increase in aid-able cost and more timely recognition of the liability.

Mr. Sargent also noted the need to research the causes of bad debt pertaining to students and alter screening processes to decrease the amount of new bad debts.

Dr. Hughes requested that this information, when available, be combined
with data relating to student indebtedness.
