ITEM G. DISCUSSION ITEMS

G-1 Budget Variance Report – Fourth (4) Month Ended October 2006 FY 2006-07 – Attachment 12

Mr. Sargent discussed a revenue shortfall related to decreases in state aid and tuition and fees. This was offset in part by expense reductions in various areas as well as improvements in enterprise activities and new initiatives such as those within the Office of Corporate Learning. He expects there to be a budget surplus by year-end.

G-2 Blue Hole – Attachment 13

Although the College received two responses to the request for proposal pertaining to Blue Hole, neither, according to Mr. Sargent, proposed use of the property in way that would be beneficial to the surrounding
community. As a result, no action has been taken on these responses. MATC will continue to look for a ways to dispose of the property.

G-3 Compensation for Technical and Non-Technical Faculty – Attachment 14

In response to a request made by Board member, Mark Maierle, Dr. Cardona presented a comparison of salaries paid to technical and non-technical faculty. He stated that the difference in salary between all full-time faculty and faculty from the Technical and Applied Science Division may be attributed to two factors: the prior teaching experience is less for most new TAS faculty and the number of college credits is not as great for most TAS faculty. This would result in a lower step and class starting salary for most new TAS faculty.
