

Nontraditional Occupations for Women

Female Nontraditional Occupations

(NTOs) are careers that have 25% or less of the positions held by women. Examples include careers in information technology, manufacturing, engineering and law enforcement.

MATC offers more than 70 academic programs that prepare students for careers designated as NTOs for women. See the listing on the back of this card.

Advantages for women choosing NTO careers:

- Greater career options and flexibility
- Increased job satisfaction
- Opportunities for higher salaries and better benefits
- Potential for a more recession-proof, stable career track

Prepare for your career at MATC

Associate degrees – Most are designed to be completed in two years of full-time study.

Technical diplomas – Most are designed to be completed in one year of full-time study.

Apprenticeship programs with local trade unions and/or business owners – Students enter apprenticeship programs through a selection process guided by employer needs.

Contact MATC's NTO office for information about the nontraditional careers that interest you.
