The District Owned Vehicle Use Procedure establishes guidelines for the operation of a district owned vehicle including an annual review of the driving record as found on the Wisconsin Department of Transportation Driving Record Abstract. Any MATC employee who operates a district owned vehicle must successfully complete a Defensive Driver’s In-Service Course. Holders of the Commercial Drivers License (CDL) designation will be accountable for drug and alcohol testing as delineated by the U.S. Department of Transportation, Federal Highway Administration, in effect January 1, 1996. Training, verification of records, implementation and enforcement shall be performed by the District Risk Manager.

Who Can Drive A MATC Vehicle

MATC employees with a valid Wisconsin driver’s license, acceptable driving record, two years licensed driving experience and the successful completion of a defensive driving training course may drive a MATC vehicle. Exceptions on the MATC employee requirement may be made for MATC students and contractors filling in for MATC regular employees; however, any exception must be first approved by the MATC department person assigning vehicle responsibility (Public Safety, Student Life, Operations, etc.) and the MATC Risk Manager.

All drivers will be required on an annual basis to sign a Vehicle Use Agreement Form (Page 3). The department in charge of the employee shall forward the signed Vehicle Use Agreement Form to the MATC Risk Manager.

MATC employees who have an acceptable driving record; complete a defensive driver’s course; have read this procedure and signed the Vehicle Use Agreement Form can use a school vehicle. All drivers who use school vehicles will have their drivers records checked annually by the MATC Risk Manager. Departments must provide drivers license numbers to the MATC Risk Manager for all potential drivers on an annual basis or immediately after employing a person who will be required to operate a MATC vehicle. The determination of whether a MATC employee is considered to have the ability to carry out MATC business in a safe and efficient manner while operating a MATC vehicle shall be determined by the MATC Risk Manager.

Whenever a driver of a MATC district vehicle has his/her driver’s license revoked, restricted, or suspended the driver is required to immediately notify his/her supervisor. The supervisor of the department shall immediately notify the MATC Risk Manager and make reasonable attempts to avoid assigning tasks requiring the use of MATC vehicles. If this is not avoidable such drivers may use their personal vehicles and be reimbursed.
at the MATC mileage rate. The driver must submit a Certificate of Insurance to the Risk Manager for review prior to conducting MATC business with their own vehicle. Drivers who have been denied use of a MATC vehicle based on an unsatisfactory driving record may request review of the denial by the MATC Risk Manager.
