

# Registered Nursing

## ASSOCIATE DEGREE

Program Code: 10-543-1

### Downtown Milwaukee, Mequon campuses

Prepare for a registered nursing (RN) career at MATC. Theory and lab courses on campus set the foundation for your clinical practice. Simulation and guided practice in clinical settings further prepare you for practice as an RN. Graduates are eligible to take the RN licensure exam (NCLEX-RN). Nursing Assistant training is required prior to petitioning for this program.

Employers will expect graduates to have plans to earn a Bachelor of Science in Nursing (BSN). Some BSN courses may be taken concurrently with associate degree courses.

The Practical Nursing technical diploma ladders into this associate degree, followed by many choices for RN-BSN programs. Contact an MATC advisor for information.

### Program Learning Outcomes

- Integrate professional nursing identity reflecting integrity, responsibility, and nursing standards
- Communicate comprehensive information using multiple sources in nursing practice

(For full description, see [matc.edu](http://matc.edu).)

### Admission Requirements

High school diploma or GED, and one year of high school biology and chemistry are required. This program admits students through a petition selection process. See program's webpage at [matc.edu](http://matc.edu) to view details.
