

PRESIDENT'S AWARD PROGRAM SUMMARY

The President's Award is a district recognition program for graduates of the college designed to honor and reward their contributions to the college and the community as well as their academic achievements while attending MATC.

The Office of the President, the MATC Foundation and Local 212 — Faculty Union sponsor this annual program held each spring. The Scholastic Recognition Committee, in conjunction with the Office of the Registrar, coordinates and conducts the district competition to select the MATC President's Award recipient.

Each fall and spring, the Office of the Registrar generates lists of eligible students who are notified of their eligibility. In mid-March, an initial screening/evaluation of all applications is conducted to determine the President's Award finalists. Finally, in early April, a district review panel will interview the finalists, evaluating their written applications, essays and oral responses, to determine the President's Award nominee.

The announcement of the President's Award nominee, as well as the presentation of recognition certificates and awards, will take place during the Honors Award Ceremony held each semester. The winner, along with their guests, faculty, staff and administration of the college, will be invited to take part.

For information regarding this competition and on how to apply, see the attached documents.
