

Sustainable Operations

Advanced Professional Skills Certificate

Offered at the Oak Creek Campus, Center for Energy Conservation and Advanced Manufacturing (ECAM)

Center for Energy Conservation
& Advanced Manufacturing

Put Green into Action

Learn how to save dollars on operations and maintenance by applying sustainability concepts now. This new certificate program also covers energy management systems, sustainable operations management, maintenance management, Six Sigma, Lean, LEED certification, renewable energy and management, and training of building service workers. The Sustainable Operations certificate is for working professionals and those seeking careers as facility managers, sustainability directors, building superintendents, building managers, maintenance managers, plant managers, sustainable development coordinators and environmental managers.

A Quick Study

MATC certificate programs provide focused, career-centered learning that can be completed in one semester. They fulfill the needs of local businesses and have the input of industry professionals. Certificate programs train you for specific skills that are in demand, improving your odds of getting the job.

Certified Advantages

- Strengthen core skills.
- Add traction to your résumé.
- Enhance your employability.
- Try out a new career.
- Bank credits toward a future degree or diploma.
- Complement skills you are learning, or plan to learn, as part of a related degree or diploma program.
- Study at your convenience – day, online, at night or on weekends.
- Ease back into college if you have been away for awhile.
- No orientation sessions. No admissions test.*

All credits in this certificate program must be earned with a 2.0 GPA or better. The student must initiate the request for the certificate upon completion of requirements.

** College transcripts or work history evaluation may be required in some cases.*

Certificates Do Not Qualify for Financial Aid

Certificate programs are not eligible for financial aid. Earned certificate program credits can be transferred to selected associate degree or diploma programs. Degree and diploma programs are financial-aid eligible.
