Course-Section Type Matrix

The Course Type Matrix identifies types of courses offered to students at MATC.

Note: Only **one** course type applies to **each** course section.

Course Type	Description
Face-to-Face	The course section is 100% in-person, in a specific campus-classroom, during scheduled sessions. 100% of the course will be taught on campus in a designated classroom.
100% Online	The course section is 100% online using Blackboard with no requirement to attend on campus. Faculty can offer live scheduled sessions, but cannot require students to attend them. For this reason, any live sessions are to be recorded and posted for students to watch.
Live-Scheduled-Online	The course section is 100% online but has **required** scheduled (virtual/live) sessions. Virtual dates/times will be listed in the Course Catalog. Students are **required** to attend the scheduled virtual sessions.
Blended Learning	Course sections that combine in-person (classroom) learning with online instruction. *Less than 50%* of course instruction is delivered online using Blackboard and other technologies. Faculty will indicate the day(s) and time(s) students are required to attend the face-to-face sessions in the Course Catalog. **Note: Both instructor and ALL students are in the classroom at the same time for the in-person scheduled times.**
Hybrid Learning	Course sections that combine in-person learning with online instruction. *At least 50% but less than 100%* of course instruction is delivered online using Blackboard and other technologies. Faculty will indicate the day(s) and time(s) students are required to attend the in-person sessions. **Note: Both instructor and ALL students are in the classroom at the same time for the in-person scheduled times.**
HyFlex	A "hybrid flexible" course design model that combines in-person learning with online learning options. Instructors tailor course content for each format. Students have the option to "flex" their course to fit their needs by choosing in-person, online or live-online attendance on a day-to-day basis. Faculty deliver instruction 100% in-person and indicate days/times and location in the Course Catalog. Class sessions must be held in a room equipped with a camera and audio capability (wall/ceiling mounted preferred over webcams).
