COMPREHENSIVE GUIDE TO MATC’S FOUR-YEAR TRANSFER OPTIONS

YOUR FUTURE

FALL 2014

MATC.EDU

MILWAUKEE AREA Technical College
President Obama has a nationwide goal of 8 million new college graduates by 2020, and MATC plays a key role in helping you become one of these graduates. A successful transfer process – the pathway between two-year colleges (such as MATC) and four-year institutions – is vital to reaching the president’s goal, and yours!

To help guide you on this important path are MATC’s Office of Articulation and Transfer, together with experienced advisors, faculty and transfer specialists. These key people have experience in recruiting, enrolling and serving transfer students as they graduate from MATC and continue their education to attain a baccalaureate degree.

Whether you are just beginning your educational journey with MATC, or are in your final semester here, there are several important things you need to know and do BEFORE transferring to a four-year institution.

**The first and probably most important step:** Identify the program-to-career pathways you might want to take. Be clear on the career you want to pursue and identify all the pathways to get you there scholastically.

**Begin looking at MATC’s articulation or transfer agreements.** We have established these agreements with four-year colleges and universities to ensure that the transfer process flows as seamlessly as possible. Institutions accepting MATC programs are listed in this 2014 Transfer Guide Directory and on the MATC website (matc.edu/student/currentstudent/credittransfer/index.cfm).

Articulation agreements provide opportunities for MATC students to take courses here and have confidence that credits will transfer to a four-year institution. This means that you are with MATC for two years completing an associate degree program, and then you’re able to enter the four-year institution with junior-year standing. You’ll typically have two years of education remaining to complete your bachelor’s degree and begin your future career.

**Get a successful start now!** Review this Transfer Guide and plan your pathway to a bright future.

---

**More than 20 four-year transfer partners will be on campus with information about their bachelor’s degree programs.**

**TRANSFER DAYS**

**FALL 2014**

**Oak Creek Campus**

Tuesday, October 7

Wednesday, October 8
9 a.m. - 1 p.m. and 4:30 - 6:30 p.m.
2nd Floor, Student Services Building Atrium

**West Allis Campus**

Thursday, October 9
9 a.m. - 1 p.m.
Rooms 107 and 117

**Mequon Campus**

Thursday, October 9
4:30 - 6:30 p.m.
Student Cafeteria

**SPRING 2015**

**Oak Creek Campus**

Tuesday, March 10
9 a.m. - 1 p.m. and 4:30 - 6:30 p.m.

**Downtown Milwaukee Campus**

Wednesday, March 11
9 a.m. - 1 p.m. and 4:30 - 6:30 p.m.

**Mequon Campus**

Thursday, March 12
9 a.m. - 1 p.m.

**West Allis Campus**

Thursday, March 12
4:30 - 6:30 p.m.

---

**INSTITUTION VISITS**

MATC’s four-year transfer partners will visit ALL campuses during the school year and will be available to talk with students regarding transfer options. Dates and details will be announced on matc.edu.
Bachelor of Fine Arts or Bachelor of Architecture degree. Students generally can earn a master’s after two years of study. A doctoral degree (for example, a Ph.D.) requires four or more years of study.

This requires completing a four- or five-year college program, such as a Bachelor of Arts (B.A.) or Bachelor of Science (B.S.) degree. Other types of bachelor’s degrees include the Bachelor of Fine Arts or Bachelor of Architecture degree.

This is a two-year degree and can be an Associate of Arts (A.A.) or Associate of Science (A.S.). Some students who earn this degree transfer to a four-year school to earn a bachelor’s degree. Others complete associate degrees to directly enter the workforce. Community colleges, technical colleges and some four-year colleges offer these degrees.

Program-to-Program Transfer

For MATC students interested in a bachelor’s degree related to their MATC program.

These four-year schools accept specific MATC degree programs for transfer. Talk with your advisor to learn more.

1. Alverno College

Universal Transfer

For MATC students seeking a bachelor’s degree that can be in a different field than their MATC program.

Any MATC associate degree can transfer into a Universal Transfer Agreement. Specific degree completion options may be required; discuss details with your advisor.

1. Alverno College
2. Capella University
3. Concordia University
4. Marquette University
5. Mount Mary University
6. Ottawa University
7. Rasmussen College
8. Upper Iowa University
9. University of Phoenix

Historically Black College/University (HBCU)

Complete your first two years at MATC. Transfer with junior standing to one of 10 partner HBCUs throughout the United States.

1. Bennett College
2. Florida A&M
3. Jackson State University
4. Lane College
5. Miles College
6. North Carolina Agricultural & Technology State University
7. Paine College
8. Rust College
9. Talladega College
10. Texas College
Planning Ahead is Key to Reaching Your Academic Goal

Because of our close relationship with our four-year partners, MATC makes transferring as seamless as possible.

When planning to transfer, it is recommended that you:

• Understand the current agreement between MATC and the four-year institution you plan to attend.

• Know the requirements for your chosen major.

• Gather as much information as possible about your transfer college/university to be sure it is right for you.

• Plan ahead and contact your chosen four-year institution early. The four-year school makes the final decision about which MATC classes and programs will transfer.

Take the Transfer Quiz

Job: A small, miscellaneous piece of work undertaken at a stated rate.

Career: A profession for which one trains and which is undertaken as a permanent calling.

1. **True or False?** It is important that your two-year college be accredited.
   
   True. Four-year colleges and universities accept transfer credit only from schools formally recognized by a regional, national or professional educational agency. MATC is accredited by the Higher Learning Commission, Commission on Institutions of Higher Education.

2. To decide where to transfer, students should:
   
   A. Learn which schools offer articulation agreements with their current college
   
   B. Review MATC’s Transfer Guide
   
   C. Search websites like https://www.transfer.org
   
   D. Talk to friends, college advisors and alumni of other schools
   
   E. All the above
   
   E is the answer. Then the next steps are to make a list of potential new schools and research factors such as majors offered, tuition and housing costs. Prepare a list of questions about each school and get answers from the colleges’ websites, their admissions/transfer representatives, and through campus visits. With questions answered and priorities in mind, a top choice will emerge from your options.

3. **TRUE OR FALSE?** After reviewing your application as a potential transfer student, the four-year school contacts your current college for transcripts.
   
   False. The four-year school will require that you send your most recent transcript, plus official transcripts from all colleges you’ve attended, with your application.
   
   Some institutions may require that your high school transcript and standardized test scores also be sent, usually if you have less than one or two years of college courses.

4. What are the best options for finding out which of your classes will transfer?
   
   A. Visiting the University of Wisconsin System’s transfer information website, tis.uwsa.edu
   
   B. Contacting four-year schools as early as possible in the transfer process to review their requirements
   
   C. Finding out if the four-year school’s admission office provides an unofficial evaluation of credits
   
   D. All of the above.
   
   D is correct; answers A, B and C offer good suggestions for determining which classes will transfer to the four-year school. Transfer students need to plan ahead and contact four-year schools as soon as possible!

5. **TRUE OR FALSE?** Financial aid does not transfer exactly from institution to institution.
   
   True. Colleges have different ways of calculating aid, so the financial aid offered to you may differ. You should explore your financial aid options when researching schools. Transfer students may be eligible for federal or state grants, work-study or loans based on financial need. Also find out if the four-year school offers scholarships for transfer students.
ALVERNO COLLEGE

POSITIONING STUDENTS FOR SUCCESS

Everyone’s journey to and through college is unique and, at Alverno, we believe every path should help you find your unique voice. Recognized worldwide as a leader and innovator in higher education, Alverno has more than 125 years of experience educating young women, helping each to accomplish her goals and achieve more than she ever thought possible.

How? Alverno positions you for success after college. We do this by providing a real-world learning environment where you learn from actually doing, rather than simply reading and memorizing.

The results are incredible! By requiring you to demonstrate the skills of your chosen field while also perfecting the professional traits most in-demand by employers, you’ll enter the workforce ready to make your mark. More specifically, Alverno’s unique abilities-based education requires mastery of the precise skills – problem solving, analysis for critical thinking, effective communication, social interaction – employers are seeking. As a result, most Alverno grads find jobs quickly after graduation AND in jobs directly related to their major.

Visit alverno.edu to learn more about our 60 major areas of study and how Alverno can help YOU find your unique voice.

MATC’s TRANSFER PROGRAM

creates pathways to four-year institutions for earning bachelor’s degrees.

CARDINAL STRITCH UNIVERSITY

BUSINESS EDUCATION FOR ADULTS

If you’re considering earning a business degree, you’re in good company. According to the National Center for Education Statistics, business is the most popular major for bachelor’s degree students and the second-most popular field of study for master’s degree students.

This is probably because business degrees teach versatile skills and knowledge. Business students learn concepts that can apply to many different industries and organizations, including:

Accounting – How organizations keep financial records, and how these records can be used to make business decisions or demonstrate legal compliance.

Finance – How organizations strategically use money, assets, debt and investments.

Marketing – How organizations identify target markets for their products and services, and develop strategies for reaching those consumers.

Management – How organizations build teams and cultures and use resources in order to operate effectively.

MATC’S ARTICULATION AGREEMENTS help minimize duplication of coursework when transferring to a four-year school.
PLAN YOUR NEXT STEP

College is a time for discovery, and at Cardinal Stritch University, everyone you meet – from your professors and classmates to support staff – is here to help you discover your place in this world. Every day at Stritch, we are helping students, like you, discover their life’s work, because that’s our mission.

Cardinal Stritch University is a comprehensive Catholic Franciscan university that offers more than 60 programs of study in four colleges. In addition to our daytime programs in arts and sciences, business and management, education and leadership, and nursing, Stritch also offers many evening degree programs designed especially for adult learners. Classes are formatted to fit your busy schedule and are offered in convenient locations or online.

Find out more about transfer credit, financial aid and MATC articulation agreements at www.stritch.edu or call us at 414-410-4000.

OUR PROUD HERITAGE, YOUR PROMISING FUTURE...

Carroll University provides a superior education, rooted in its Presbyterian and liberal arts heritage, and draws upon its Christian tradition to prepare students for vocational success, lifelong learning and service in a diverse and global society.

Think personal: Carroll’s current student population totals 3,539, including 2,734 full-time, 390 part-time and 415 graduate students. With an average class size of 22 and a student-faculty ratio of 17:1, there is plenty of opportunity for interactive discussion and personal attention.

Think location: Carroll’s campus is in a historic residential area of Waukesha, population 71,000, and is 15 miles west of Milwaukee. We are uniquely positioned to provide students with access to an array of internships, clinical and student teaching opportunities, and cultural and recreational activities.

Think academics: Throughout our history, the hallmarks of the Carroll educational experience have been teaching excellence and individualized attention. We offer over 80 undergraduate areas of study and eight graduate programs, all drawing inspiration from our rich liberal arts and sciences tradition.

Think affordable: Carroll University has a long tradition of working in partnership with students and their families to make a Carroll education affordable.

To learn more, call 1-800-CARROLL or visit carrollu.edu.
Carthage College boasts five decades of experience in preparing adult learners for professional careers. Each year, more than 1,500 busy working adults enroll in the rigorous degree and certificate programs.

Area employers made it clear that adult students would be best served by an evening curriculum that offered challenges rather than shortcuts, top professors rather than teaching assistants, and an understanding that, for many adult learners, families and careers come first. Carthage delivers on all of these.

Carthage has provided liberal arts education since 1847. The degree is recognized and respected nationwide, because it identifies the holder as someone who knows how to think, how to persuade and how to lead. Earning the same degree as traditional students, adult learners receive access to the same top-notch professors and facilities.

What will your education be worth? A Carthage education will serve your needs today and help you achieve even more as your career progresses.

To learn how the Carthage experience can open doors and make dreams come true, schedule an appointment with an admissions representative:

- Call 262-551-6300 or 800-551-5343
- Email adulted@carthage.edu
- Visit www.carthage.edu/adult

Research shows completing the first two years at MATC leads to SUCCESS at a four-year college/university.

Concordia University Wisconsin has soared to the forefront of undergraduate education and your peers have helped play a significant role in our growth. CUW proved to be the most transfer-friendly of all Wisconsin independent colleges, totaling the highest transfer enrollment in 2013! The relationship between MATC and CUW proved paramount in this accomplishment. Our streamlined admission processes, articulation agreements, co-op programs, and granting up to 80 transferable credits; undoubtedly make for a smooth transition for MATC students.

Whether it is the addition of a brand-new $20 million dollar residence hall, new academic programs or the recent addition of varsity sports, CUW’s commitment to develop our students in Mind, Body and Spirit is not just a mission, but a passion for our faculty and staff. This commitment to our students and graduates helped us rank in the top five Wisconsin colleges for return-on-investment, validating the affordability of our top-tier, private education.

The 200-acre main campus located in Mequon sits on the beautiful Lake Michigan shoreline. In addition to our main campus, there are nine Accelerated Learning Centers throughout Wisconsin, including local centers in Kenosha, Miller Park Way, Milwaukee Midtown and Waukesha. Join us at the forefront, write your own destiny, and SOAR!
LEADING THE WAY FOR CAREER-FOCUSED EDUCATION

Founded in 1931, DeVry University is a leader in providing career-focused higher education to more than 46,000 students across more than 90 locations in North America and online. DeVry University is a different kind of university, one focused on providing students the degree programs and career resources that prepare them to succeed in long-term, high-growth industries.

DeVry University offers associate, bachelor’s and master’s degree programs in more than 40 career fields within five colleges of study. DeVry University is a leader in providing career-focused education. Our academic structure allows for swift implementation of new programs and curriculum once we notice a specific marketplace need. Courses are taught by industry-leading professionals who can offer students a real-world perspective that prepares them for immediate career success.

OTTAWA UNIVERSITY

PREPARE FOR TRANSFERRING
Be organized. Start early. Talk to four-year institution reps.

DECISION CLINCHER

When Mary VanAckeren learned from her advisor that Ottawa University would accept up to 80 credits from her MATC associate degree and apply them toward her bachelor’s in business administration, she needed no other reason to look at the school. Once she visited the campus, her decision was clinched.

“From my first meeting with the staff, I knew I would be going to Ottawa University,” said VanAckeren. “Throughout the course of earning my B.A., I had many wonderful advisors and instructors who personally encouraged me and helped me schedule courses to fit my needs. The people at OU became my educational family.”

VanAckeren’s experience at Ottawa University was so rewarding that her daughter and son-in-law enrolled through Ottawa University-Online, as well.

Ottawa University is a private, non-profit, liberal arts institution that has been preparing students for lives of significance since 1865 and has served Wisconsin for over 21 years. Whether you study at one of our conveniently located campuses in Brookfield or Oak Creek, or online, you will enjoy a relevant and engaging learning experience that encompasses Enlightened Faith, Exemplary Service, Inspired Leadership and Personal Significance.

Learn more at WTCS.transfer.advantage.com or call Cassandra Donahoe at 262-785-5112.

YOUR FUTURE
Transfer to a Historically Black College or University

Thanks to historic agreements, MATC students have the opportunity to complete bachelor’s degrees at these HBCUs:

- Bennett College
- Florida A&M University
- Jackson State University
- Lane College
- Miles College
- North Carolina A&T
- Paine College
- Rust College
- Talladega College
- Texas College

YOU HAVE A PLACE IN THE WORLD. FIND IT AT MARQUETTE.

It’s no wonder that hundreds of students choose to transfer to Marquette each year. A Marquette education inspires you to ask new questions, seek new answers and demand more — of yourself and of your career. It transforms you from someone who follows others into someone others follow.

How does that transformation happen? It’s a combination of our nationally known programs and powerhouse faculty and a Catholic and Jesuit tradition that emphasizes ethics and lifelong values. For more than 130 years, we have inspired students to “Be The Difference” in their professional and personal lives.

Our students tell us that a Marquette education is worth the investment, and we’re proud to be considered one of 50 “Best Value Schools” according to U.S. News and World Report. Marquette also offers merit scholarships especially for transfer students. To learn more, go to marquette.edu/explore or call 414-288-7302 to arrange a campus visit.
FIVE STEPS TO CREATING A COLLEGE LIST

STEP 1.
Ask yourself some questions
Answering questions like these will help you focus your search for a college or university:
- What am I interested in?
- How do I spend my free time?
- What do I feel passionate about?
- How do I learn best?
- What do I think I want to do in the future?

STEP 2.
Get to know the options
One resource is College Search Step-by-Step at bigfuture.collegeboard.org, where you can learn about categories of four-year institutions and answer questions about your preferences. You will also find in-depth information about searching for colleges and universities, along with advice from students and educators.

STEP 3.
Decide what matters most to you
For some students, sports and activities are very important. Other students want a challenging academic environment. Look at your answers to the questions in Step 1. What do they say about you and what you may like in a four-year institution?

STEP 4.
Search for institutions
You can use College Search to find four-year institutions that match your preferences. Search by location, majors, size and more. The website bigfuture.collegeboard.org offers guidance to help you along the way.

STEP 5.
Add colleges/universities to your list
Check out individual profiles of the institutions that come up in your College Search Step-by-Step results. When you see a school you like, click on Add to List to save it to a favorites list. You can return to it later and refine your list as you go along.

Mount Mary University

At Mount Mary, you can transfer into more than 30 undergraduate programs to complete your bachelor’s degree. Our focus on teaching students to think creatively enhances your leadership ability and creates greater success in the workplace. When you graduate, you’ll have the confidence and open mind to imagine and experiment with innovative ideas that will push you – and your organization – to the top of your field.

Mount Mary offers scholarships and financial aid opportunities to help you afford your education, in fact, 100% of full-time transfer students receive either a scholarship of up to $10,500 per year or an automatic tuition discount!

We’d love to meet with you to review your credits and to show you all the amazing opportunities that Mount Mary University has to offer. When you visit Mount Mary, you’ll get an on-the-spot credit evaluation so you will know right away which courses will transfer. Mount Mary has guaranteed credit transfer policies with several Wisconsin colleges, including MATC, to help make your transition go even easier!

Schedule your visit online at mtmary.edu/visit or call 414-256-1219. Mount Mary University Admission Office is at 2900 North Menomonee River Parkway, Milwaukee. Email: mmu-admiss@mtmary.edu

RASMUSSEN COLLEGE

RASMUSSEN COLLEGE AND MATC: PARTNERS IN YOUR EDUCATION

Rasmussen College and MATC have partnered to develop a valuable opportunity for you to continue your education. You can earn your associate degree at MATC and transfer your credits to complete your bachelor’s degree in as little as 18 months at Rasmussen College.*

Through affordable tuition priced at $260 per credit and locked in, Rasmussen College offers market-relevant education and comprehensive student support services to help you accomplish your academic and career goals. We are committed to making your higher education a successful investment and believe that earning a bachelor’s degree can help you achieve the career success you want.

To learn more about how you can transfer your MATC credits to earn your bachelor’s degree at Rasmussen College, please visit rasmussencollege.edu/MATC or call 920-750-5900.

*Time to completion is dependent on number of transfer credits awarded and credits completed each term.

SPRINGFIELD COLLEGE

PROGRAMS FOR BACHELOR’S, MASTER’S DEGREES TO FIT YOUR SCHEDULE

Springfield College School of Human Services degree programs are designed to meet the academic and social needs of adults returning to school. Undergraduate and graduate students attend classes two weekends a month, making it possible to continue working while attending school.

By transferring in credit and earning undergraduate credit for what they already know, students typically graduate in 16 to 24 months.

The Milwaukee Campus offers a Bachelor of Science in Human Services with optional concentrations in Addiction Studies and Criminal Justice. Master of Science in Human Services concentrations are Organizational Management and Leadership and Mental Health Counseling.

Founded in 1885, Springfield College is accredited by the New England Association of Schools and Colleges. Please contact Rosalinda Ortega at 414-276-2300 or find us online at springfieldcollege.edu/shs.

UW-MADISON WELCOMES TRANSFER STUDENTS TO ITS CAMPUS COMMUNITY KNOWN FOR TOP ACADEMIC PROGRAMS, INTERNSHIPS AND RESEARCH.

Learn more at wisc.edu.
The University of Wisconsin-Milwaukee School of Information Studies (SOIS) offers the only Information Science and Technology (IST) degree in the state of Wisconsin—a degree unlike any other bachelor’s degree in the UW System. The IST degree allows for maximum credit transfer from MATC to fast track your path to degree and to your career. The IST program will immerse you in information science, information architecture, human factors in information seeking and use, information organization, storage and retrieval, and applications of the internet. You will learn how information is retrieved, organized, manipulated, repackaged and applied in nearly every aspect of our increasingly digital culture and economy.

Our academic advisors are available to give you one-on-one attention to translate your MATC coursework into UWM credits. Our advisors will guide you through your degree and elective options—electives that matter to you and your career. Maximize what you already know, and don’t waste time on courses you don’t want or need!

SOIS offers courses both onsite and online—options that fit your life. Visit ischool.uwm.edu to learn more and to talk to an advisor today!

Completing an associate degree at MATC provides a marketable credential and locks in college credits.
UNIVERSITY OF WISCONSIN-MILWAUKEE

ATTAIN YOUR GOALS TO LEAD, INSPIRE THROUGH EDUCATION

The School of Education at UW-Milwaukee is the state’s premier school for the study and practice of urban education. We prepare people to be leaders in their professions, as teachers, counselors, administrators, special education teachers and leader-educators in social service agencies, business, government and industry.

We in the School of Education have:

- More than 80 full-time professors internationally recognized for their research, scholarship and leadership; we have a place for you in our dynamic and challenging curriculum
- A group of professional advisors ready to assist students
- Work in partnership with Milwaukee Public Schools to place our students for both their Field Experience and Student Teaching
- Scholarships for students with over 40 credits and who have been admitted into their programs

UNIVERSITY OF WISCONSIN-PARKSIDE

FIRST MATC/UW-PARKSIDE 2+2 GRADUATE

Alma Lomeli was the first student to graduate from the University of Wisconsin-Parkside through the MATC 2+2 in December 2013. She transferred to UW-Parkside with more than half of the Bachelor’s of Science credit requirements and completed her degree with an additional 54 credits. Alma says the 2+2 agreement helped her achieve more than a four-year degree, “UW-Parkside has helped me further develop my skills, abilities and knowledge that will help me succeed in life.”

UW-Parkside offers a 2+2 Business Management Articulation Agreement allowing MATC business management students to complete their bachelor’s degree in just two additional years. Once at UW-Parkside, students choose to major in accounting, MIS or business management – with concentrations in general business, marketing, finance or human resource management.

UW-Parkside offers bachelor’s degrees in 35 academic disciplines and four graduate degrees. The university consists of four academic colleges. Ranger athletic teams compete in the NCAA Division II Great Lakes Valley Conference.

BOTTOM LINE:
MATC graduates typically have much less student debt than four-year college graduates.
ON CAMPUS AND ONLINE

Choosing the right college to transfer to can be difficult, however we will be more than happy to show you why we are the most transfer friendly institution in the University of Wisconsin system.

The University of Wisconsin-Stout is a member of the University of Wisconsin System, one of the best and largest educational systems in the world. UW-Stout is a Polytechnic University recognized nationally and internationally for programs leading to professional careers in engineering, technology, business, science, art and design, and teacher education. Over 9,000 students, including international students from more than 40 countries, are enrolled in undergraduate and graduate programs.

UW-Stout is located near the Red Cedar River in Menomonie, a safe, quiet community of 16,000 residents. Menomonie is close to the large metropolitan area of Minneapolis-St. Paul (one hour east), but at the same time offers the friendliness and ease of a small town. Menomonie is also about six hours north (one hour east), but at the same time offers the friendliness and ease of a small town.

UW-Stout offers a variety of educational programs leading to professional careers in engineering, technology, business, science, art and design, and teacher education. Students from more than 40 countries are enrolled, including international students from more than 40 countries. UW-Stout is a Polytechnic University of Wisconsin System, one of the best and largest educational systems in the world.

PLAN NOW DON'T PROCRASTINATE!
Get advice from MATC transfer specialists, and attend Transfer Days events for a clear pathway to four-year institutions.

YOUR FUTURE

OFFERING YOUR DEGREE … YOUR WAY

With a tradition of quality, service and flexibility since 1857, Upper Iowa University, a private and non-profit university, has been offering postsecondary studies for both recent high school graduates and adult learners for over 155 years. UIU now serves over 6,900 students at its main campus as well as at 19 U.S. centers, our international centers, and through our Distance Education (online) programs.

Students from the Milwaukee area have attended UIU’s Milwaukee Center since 1992, and over 4,000 graduates of UIU live in Milwaukee. The Milwaukee Center, located at 620 S. 76th Street, across from State Fair Park, is a state-of-the-art facility with internet connected classrooms, computer lab, Wi-Fi connections, student lounges, and onsite student support services. UIU offers flexible class schedules, small classes, a convenient location and flexible methods of course delivery to meet student needs. UIU also offers programs in Elkhorn and Racine in addition to classes at the Milwaukee Center.

With flexibility and a commitment to high standards and quality, UIU strives to meet the needs of its students with convenient evening and weekend classes, daytime classes, hybrid classes (onsite/online combined), concentrated eight-week terms, and six different registration periods throughout the year.

Students at the Milwaukee Center can obtain a bachelor's degree in Accounting, Business Administration, Criminal Justice, Financial Management, Health Services Administration, Human Resources Management, Human Services, Management Information Systems, Management, Marketing, Psychology and Public Administration. UIU also offers all the courses and internships required as part of the Social Work Training Certificate program. All programs are approved for veterans benefits. Upper Iowa University is accredited by The Higher Learning Commission, and is a member of the North Central Association. Upper Iowa accepts financial aid through various sources including state and federal loans and grants, employer reimbursement, and scholarships.

Upper Iowa University is “Real Education for Real Change.” Contact the Milwaukee Center at 414-475-4848 or email Milwaukee@uiu.edu. They have Open Houses for prospective students every six weeks, and welcome prospective students to contact them throughout the year.

Requesting Your Official MATC Transcript

An official transcript is a printed record of every class that you have taken at MATC. It is sealed and stamped with the signature of MATC’s Registrar.

All requests for official college and Adult High School transcripts, or GED/HSSED transcripts combined with college requests, must be submitted in writing.

Your transcript will be processed in seven to 14 days, including U.S. mail time. Transcripts will not be issued if a student has an outstanding debt at MATC.

Requests for transcripts can be made: in person, by mail or by fax. Note: Transcripts will not be forwarded by fax.

To request GED/HSSED transcripts, call 414-297-6233. All other transcripts requested by phone or email will not be provided. For more information, call MATC’s automated transcript information line at 414-297-6416.

Fee Information
Payment must be included with all requests, including all mailed and faxed requests. The current fee for each transcript is:

- Mailed or faxed request – $8 per copy
- Same-day in-person student pickup – $15 for the first copy and $8 for each additional copy

Payment may be made by cash (in person), check, money order or credit card (Discover, MasterCard, Visa). Include card number and expiration date on mailed and faxed requests.

Same-day in-person pickup requires an MATC or government-issued ID. Same-day hours: Monday through Friday, 8 a.m. to 3 p.m. at the transcript desk located in Registration; Monday through Thursday, 3 to 5:30 p.m. at the Welcome Center.

Students born before 1970 who request same-day in-person student pickup are required to make their request at the Downtown Milwaukee Campus. All other transcripts may be requested at any campus.

A Transcript Request Form can be downloaded at ecampus.matsc.edu//registration/TranscriptRequestForm.pdf. If you do not use the form, include the following when requesting transcripts:

- Your full name (including former or maiden names)
- Social Security and/or MATC Student ID number
- Date of birth
- Student address
- Telephone number
- Approximate dates of attendance
- The complete address of where you would like your transcript mailed

Type your (the student’s) name and provide a handwritten signature and date as required by the Family Rights and Privacy Act (FERPA) of 1974. Requests that do not include a signature will not be processed.

If someone other than you will be picking up the transcript, you must send a written release giving permission for that person to pick up the transcript. The release must be signed by you. The person picking up the transcript must have a picture ID.

Mailed requests
Send your request and payment to:
Milwaukee Area Technical College
Records Office, Room S115
700 West State Street, Milwaukee, WI 53233-1443

Faxed requests
Fax your request and payment to 414-297-6371.

Website

Requesting Your Official MATC Transcript

Major and Career Search:
bigfuture.collegeboard.org/majors-careers

- Browse major and career profiles.
- Use the categories or tools provided to search by keyword or interest.

College/University Search:
transfer.org/uselect/about.htm

- Look up a college or university and follow the link to its website.
- You can often find links to a institution’s official Facebook page and Twitter feed on its home page.
- If you can’t find information you’re looking for, check the site map on the institution’s website.

University of Wisconsin System:
tis.uw.edu

- The Transfer Information System (TIS), maintained by the University of Wisconsin System, offers UW and Wisconsin Technical College System (WTCS) students the ability to see how their credits will transfer to any UW or WTCS campus.
- There’s much more to the TIS website (and transferring to another school) than just seeing how your credits transfer; this site is a great resource for transfer students.

Types of Higher Learning Options

Technological Colleges

In addition to offering associate degrees, technical diplomas and certificates that prepare students for a specific career, technical colleges also offer two-year associate degrees that can transfer to a four-year institution to earn a bachelor’s degree. Technical colleges are often an affordable option with relatively low tuition.

Public and Private Colleges

Public colleges are funded by local and state governments and usually offer lower tuition rates than private colleges, especially for students who are residents of the state where a college is located. Private colleges rely mainly on tuition, fees and private sources of funding. Private donations can sometimes provide generous financial aid packages for students.

Universities

Public and private universities are often larger and offer more majors and degree options (bachelor’s, master’s and doctoral degrees) than colleges. Most universities contain several smaller colleges, such as colleges of liberal arts, engineering or health sciences. These colleges can prepare you for a variety of careers or for graduate study.

For-Profit Colleges/Universities

These are businesses that offer a variety of degree programs which typically prepare students for a specific career. They tend to have higher costs, which could mean graduating with more debt. Credits earned may not transfer to other institutions, so be sure to check with the admission office at each institution.

Specialized-Mission Colleges and Universities

Historically Black Colleges and Universities (HBCUs) focus on educating African-American students. Hispanic-Serving Institutions (HSIs) are institutions where at least 25% of the full-time undergraduate students are Hispanic. HBCUs and HSIs may offer programs, services and activities targeted to the under-represented students they serve.
