

## Access MATC Applications (via VMware View)

Remote access to MATC applications is provided by our VMware View virtual desktop system.

You can connect to different "pools" of virtual machines, based on your needs and entitlements, from many internet connectable devices.

**This document pertains to the client use. If you need to install the client you will need to refer to the document called [“Access MATC Applications \(via VMware View\) Client Install Instructions”](#)**

You can connect to your desktop and applications by using the VMware Horizon View Client, or to your desktop through the browser. The VMware Horizon View Client offers better performance and features.

### Using the Client to Connect Desktop icon log on.

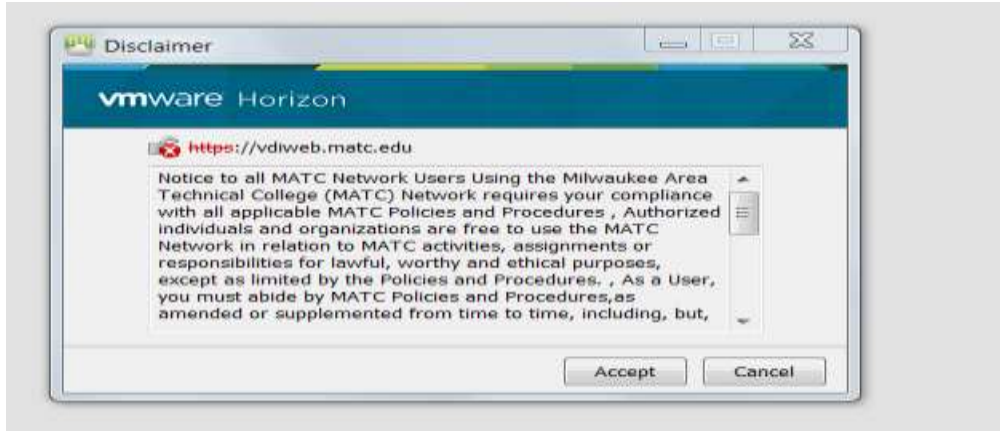

Click on the icon

The next screen you will see will be link to MATC Desktop Pools: click on the cloud link

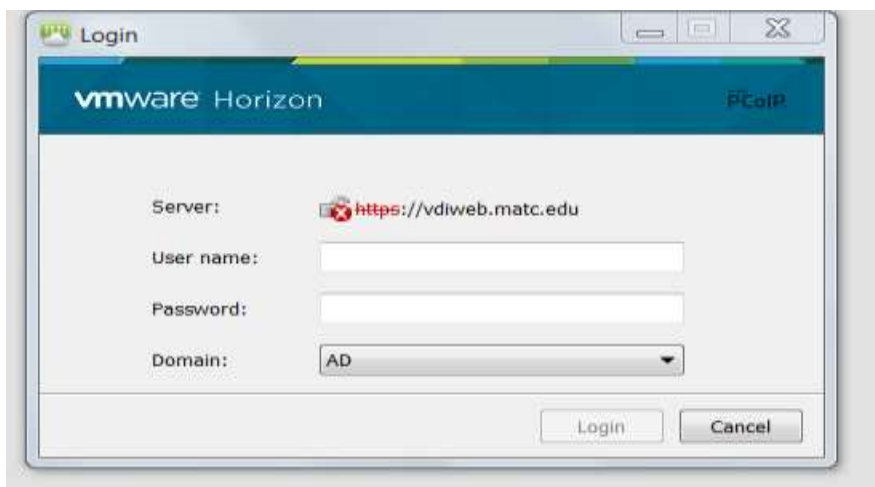

Accept the disclaimer

**Note:** If prompted to enter the host/server name, please enter: <https://vdiweb.matc.edu>

You will be directed to the Login Screen. Enter your MATC id (user name) and password

This will authenticate you and provide you with the desktops available to you. Click on the desktop that you would like to log into.

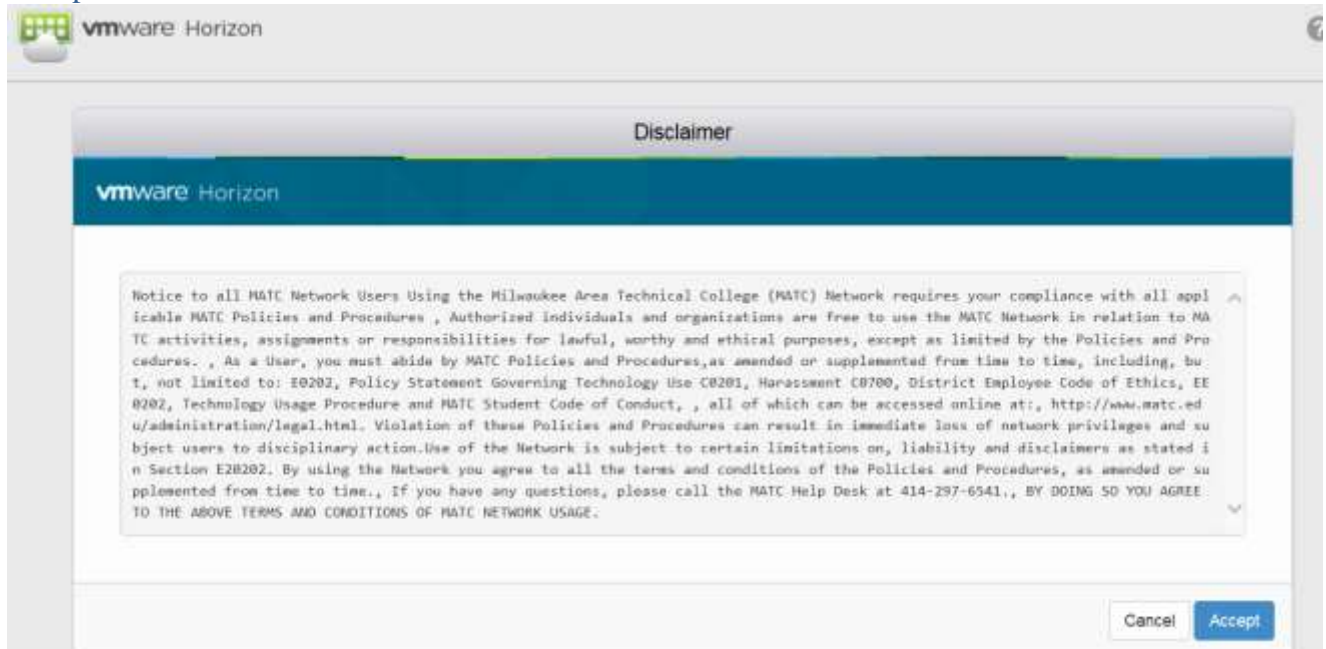

## HTML Access – is more like a kiosk mode client connection

The HTML client has limitations. Think of this client like a Kiosk client. There is no local drive access, no local printer access, no thumb drive / cd access, no protocol selection and use of only one desktop. (you cannot switch desktops like you can when using the View Client)

From your web browser type this url. <http://vdiweb.matc.edu>

Accept the disclaimer

You will be directed to the Login Screen. Enter your MATC id (user name) and password

The image shows the VMware Horizon login interface. At the top, it says "Log In" and "vmware Horizon". Below this, there are three input fields: "Username:" with a red border and a red error message "This field is required.", "Password:" with a lock icon, and "Domain:" with a globe icon and "AD" selected. At the bottom right, there are "Cancel" and "Sign In" buttons.

From the pool of desktops available to you, select the desktop that wish to use
