Dietetic Technician Associate Degree Program

**Program Goals**

The program will prepare graduates to be competent entry-level dietetic technicians.

- During the final semester of the dietetic technician program all students will pass the “mock” dietetic technician registration examination with a score of 77% or better within three trials.
- Graduates of the Dietetic Technician program will achieve over a 5-year period, a pass rate of at least 80% on the first attempt on the Dietetic Registration Examination.
- 70% of graduates who seek employment will be employed in a nutrition/dietetics related field or enrolled in higher education within 3 months of graduation over a five year period.
- Graduating students achieve satisfactory rating for all entry-level competencies and core abilities.

**Program Completion:** At least 80% of program students complete program/degree requirements within 150% of the program length (3 years).
