CREDITS

Total credits needed to complete this diploma

29

‡ Prerequisite required.

Program curriculum requirements are subject to change.

Current MATC students should consult their Academic Program Plan for specific curriculum requirements.

MATC courses are offered in person, entirely online or partially online.

Check each course's delivery options in Self-Service at selfservice.matc.edu.

Program Description

Develop the knowledge and skills necessary to manufacture dental prostheses, including fixed restorations and complete dentures. The curriculum integrates theoretical study with hands-on dental lab applications. Students train in MATC's fully equipped dental laboratory, gaining practical experience to prepare for careers in the dental industry.

Career Outlook

The increasing demand for aesthetic dentistry, along with an aging population and expanding workforce, continues to create strong employment opportunities for skilled dental technicians.

Program Learning Outcomes

- Relate concepts of oral anatomy, morphology and occlusion to dental laboratory procedures.
- Perform laboratory techniques and procedures for dentures.
- Assume the role of the dental laboratory technician as a member of the dental healthcare team.
- Observe infection control and environmental safety procedures.
